change. London's
llagardening.org is a
corners awards and

n ugly little corner
ght have a beautiful

little corner that is also edible for the community :) Love it, love it, love it! Very little investment and a great return!

Has anyone had any luck with this before? I just think it's such a fun, free-spirited sort of idea. Might work, might not but I'm thinking it would be worth a try.
