Connecting

Fri, 06/18/2010 - 01:11 -- Eric

I mentioned in my profile that I have many varied experiences. I would be happy to guide or share these experiences. More can be seen on my blog: <http://treesrockandwater.blogspot.com> [1]

I mention on my blog that due to an extremely cold winter in the UK it took a while for seed to germinate. In various places on the veg plot I had to resow. The crops in our at home have fared better due to the garden being quite protected.
