75 Things you can compost, but thought you could not.

Sat, 10/23/2010 - 00:49 -- Allotmentmanyork

This is an interesting and slightly amusing [link](#) [1]. The only problem i have with some of these things, is the amount of vermin that may be attracted. I think that Gillians idea is the best for composting slightly dodgy items. Bury them in a hole where they will break down in time and will be hidden from the rats.
