## Winter Garden Sans Greenhouse

Mon, 12/27/2010 - 12:07 -- johannagreen

We have some very low tech winter gardening going in a couple of our beds. I'm pretty thrilled and totally hooked. I can't figure out how to copy my blog post, but this link should get you there

I feel like we're way beyond season extension here and getting a slow start at a year round harvest.
