Still trying to grow a 6 foot long Carrot

Wed, 03/09/2011 - 15:05 -- Dantheveg

Well, my annual conquest to grow stupidly long root vegetables has started yet again. I'm trying to grow some that are good enough to justify me entering into the North of England show. It's a bit of a daft hobby but I enjoy it and so do the other competitors. Preparation is the key so I've been boring holes in barrels and boxes of sand to grow the Carrots and Parsnips in and we'll see how they go. Did a YouTube video showing the procedure. Link below. <http://www.youtube.com/watch?v=9WRXfTz0BiY> [1] So by September we'll see the results.
