One Year in a Small Tomato Garden

Wed, 05/25/2011 - 12:00 -- Jennifer May

Last year, I followed master gardener Lee Reich's advice for creating a weed-free, dig-free garden and since I am a photographer I documented the process through the year. Click through to see photos of a scrappy piece of lawn transform into a lush tomato-producing garden. Since I am part of a great CSA in my area, all I wanted to grow on my own were San Marzano heirloom sauce tomatoes. They were so delicious I ate them all in fresh sauces and didn't can any. <http://www.jennifermay.com/blog/2011/04/one-year-in-a-small-tomato-garden/> [1]
