Cohocton River Rock Micro Farm Award Winning?

[We stopped by the Steuben County Fair this week to see how the entries fared.](#) [1] The bad news first, the vegetables did not win any awards. I was really impressed by the quality of the produce submitted.

The jam and bread entries fared much better. I was surprised by the second place ribbon the bread won. I anticipated the baked good competition to be very strong, and it was. There were few breads and more cookies so I think being in the bread category was beneficial.
