## sophie53 question

Thu, 08/04/2011 - 15:39 -- sophie53

Question:

What's wrong with my zucchini?

Crops::

[zucchini \(courgette\)](#) [1]

Group content visibility:

Use group defaults

Question Details (optional):

My zucchini plants are looking wilted. They have a mildewy like substance on the flowers, then they die. I haven't had many zucchini. I have been watering them because it is so dry and hot. Am I doing more harm than good? Also, I have a LOT of male flowers. What gives? (Some of the zucchini have rotted on the vine.)Thank you!
