SunnyBlooms question

Sun, 06/10/2012 - 09:58 -- SunnyBlooms

Question:

Can I re-plant in the same spot?

Crops::

[beans \(bush snap\)](#) [1]

Topics::

[crop rotation](#) [2]

Group content visibility:

Use group defaults

Question Details (optional):

My green beans that were planted in early April are almost finished producing. Can I pull them out and plant more green beans in the same row for fall (after adding organic material) or should I plant something else in that row? I've had no problems with pests or diseases on that row so far.
