Timothy Gierschick question

Mon, 06/25/2012 - 21:05 -- Timothy Gierschick

Question:

Used desiccant (silica gel) packs to keep saved seeds dry? Any advice?

Question Details (optional):

Any other seed savers out there: have any of you ever used leftover desiccant (silica gel) packs (such as come in electronics, etc.) to keep your saved seeds dry? I have several, but wanted to inquire the larger community before I try this. I want to make sure it's not TOO dry. Any experience to share?
