There Once Was a Blog

Sun, 08/19/2012 - 16:34 -- JeanneSavage

There once was a blog named <http://driveucrazy.com> [1]. There still is. I have expressed there, my interest in microgreen gardening. We do not know what contamination, particularly man-made, is in packaged food.

Lately, there are concerns with so-called fresh produce, even if labeled USDA

Organic.

A little over a week ago, I started with a few experimental tasties for the kitchen. I have added to my salads kale and bok choy sprouts, then, as they developed true leaves, cuttings that were fed with Botanicare ProGro. This may not be the best, but it is what was available at the garden supply store.

Happy gardening to you all.
