

Darwin Tan question

Fri, 10/05/2012 - 09:07 -- Darwin Tan

Question:

Why are my potato plants stunted, yellowing and dying before producing?

Crops::

[potato](#) [1]

Group content visibility:

Use group defaults

Question Details (optional):

I've tried growing potatoes several times and always encounter one same problem that is it grow pretty well initially for about a month with the height of one foot. But subsequently the leaves and branches turn into yellow and died. What is the reason?
