## South Dakota Achieve Gardens

Wed, 06/19/2013 - 09:46 -- South Dakota Achieve

The weather here in South Dakota has given Palisades and Here4Youth a rough start in our planting season. We just got our garden planted a week ago! Everyone dug in and got their hands and gloves dirty. We have an amazing volunteer that has taught us so many things already. We now have 4 raised beds that have vegetables such as beans, cucumbers, peas, carrots, radishes and even some herbs. We also planted a wide variety of tomato plants so everyone can see just how many there are. All of our plants are doing well and have a lot more room to grow, Grow, GROW!
